GAME VIEWING AND ACTIVITIES

Saadani is the only wildlife sanctuary in Tanzania bordering the ocean. Game viewing varies throughout the year and the area is known for sightings of porcupines, civets, bush pigs, baboons and vervet monkeys. On the open sea, you might be able to spot many species of fish, dolphins, turtles and humpback whales.

The following activities are included in your stay:

1 Game drives

Game drives start straight from the lodge's 'front door' in comfortable 4x4 vehicles. The big four are frequently spotted around the lodge.

2 River safaris

Explore the wonders of the famous Wami River, a paradise for bird watchers and wildlife.

3 Walking safaris

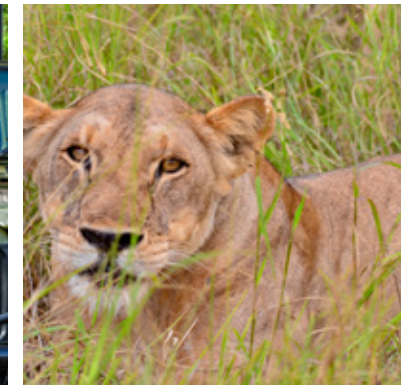

From right outside the suites, wildlife spotting can occur on foot. Nowhere else in the world can you walk on a beach following the footprints of a lion.

CLIMATE

Tanzania has a tropical climate which is mainly characterised by warm days and cool evenings. December to March is usually the warmest months of the year, while June to August are the coolest. April and May often see intermittent rains, and from September to November the days are warm with short scattered rains falling in November. As the lodge is situated on the beach it could become humid at times and on most evenings there is a cool breeze coming from the ocean.

CLOTHING

Clothing should be cool and comfortable. Greens, browns and khaki coloured clothing are advisable for safaris especially when doing a walking safari. We suggest long sleeves and long trousers and for morning and evenings due to mosquitoes and a fleece jacket as it could be cold early mornings. Sturdy and comfortable shoes are essential. Sunscreen, sunglasses and hats are essential. Binoculars and good cameras are an absolute must. The camp provides a torch as well as complimentary mosquito repellent and toiletries.

HEALTH

Please should discuss health precautions for your travel itinerary with a qualified health professional at least six weeks before you depart. We advise all travellers to take precautions against malaria and we recommend speaking to your GP or personal physician four to six weeks before departure.
