

Juma Lodge

Juma Lodge is entirely eco-friendly in design and construction. All materials used in the construction of Juma are native and found abundantly in the region, carefully extracted from the surrounding area. Both the construction and the architectural style of the lodge reflect the techniques employed by Amazon River natives when building their own homes.

Juma Lodge region is remote and relatively untouched. It is located 100 km (62 miles) southeast of Manaus on approximately three hours by boat, van and boat again. Accessible by air on seaplane (25 minutes) upon request.

The lodge features 20 intimate bungalows seamlessly nestled into the lush surroundings of the Amazon Rainforest. In order to accommodate the water levels of the wet season (often rising up to 15 meters, or 49 feet), the property was built on stilts upon solid ground resting at treetop level.

Additional Activities

Some tours already included in packages can also be booked separately, such as overnight in the jungle, tree climbing and fishing.

Guides

All of guides speak both Portuguese and English, but we can provide guides fluent in other languages upon request.

Accommodations

Reflecting its environment, Juma Amazon Lodge is rustic yet beautiful, offering guests an optimized blend of authenticity and comfort. The lodge's footprint is minimalist, yet elegant in concept. 6 of our bungalows offer views of the surrounding forest, 12 are riverfront and 1 is panoramic.

All bungalows have private bathrooms with hot water solar systems, porches with hammocks and ceiling fans ideal for the Amazonian night, which tends to be far cooler than Manaus.

Rooms are equipped with fans. The bathrooms of the River View Bungalows offer solar-heated water.

The **Family Bungalows**, **Panoramic Bungalow** and **Juma Bungalow** offers air-conditioned.

Program Arara: 3 Days & 2 Nights

Day 1: Departure from your hotel in Manaus in the early morning. The trip takes three hours via speed boat, van and speed boat again. During your trip you might encounter some pink dolphins on the way and you will stop to see the amazing Meeting of the Waters, the spot where the muddy waters of the Solimões River and the black waters of the Negro River run side by side, without mixing, to form the great Amazonas River. Enjoy your first contact with the jungle and observe the giant water lily. At Juma Lodge, a welcome drink prepared with exotics fruits awaits you. During lunch, an Amazonian cuisine is then served. The afternoon activity is a reconnaissance tour through the igarapés (Amazonian creeks) and the igapós (flooded forest) in motorized canoes. Return to the Juma Lodge. At night, go out in a canoe ride to observe the night fauna and meet alligators, frogs and birds. Stay alert to the mysterious sounds of the forest and the starry sky.

Day 2: Breakfast with typical fruits and regional food. Leave for a jungle hike. Once inside the Amazon Forest feel its charm and greatness. All tours are led by a lodge guide with great knowledge of the area. Return to the lodge for lunch. In the afternoon we will go out fishing and learn more about the indigenous species of the Amazon (piranha, peacock bass). While enjoying the sunset, return to Juma. Dinner will be complemented by the fish you caught earlier, cooked the Amazon way. Later, be part in a lecture conducted by one of our guides about the Amazon life.

Day 3: Early in the morning we will leave for a sunrise excursion, witnessing the transformation of the dark water of the Juma River into a mirror and listening to the sights and sounds of the waking birds. Breakfast. Return to Manaus, arriving at about 11:00 a.m. and then going to the airport or to your hotel in Manaus.

Important: These tours are organized through programs that are subject to change based on weather and other unforeseen conditions.

Program Mutum: 4 Days & 3 Nights

Important Information

Sustainability

Photovoltaic Solar Energy

42 solar panels have been placed on a 100 sq meter (1,076 sq ft) floating dock, allowing Juma, in the near future, to progressively phase out power generators. These panels have the support of 72 batteries, maintained safely in storage.

Solar Water Heating

All of our special river view bungalows boast a hot water solar system.

Sewage Treatment

Juma's sewage undergoes a technique reflecting the most modern and efficient methods used throughout the world: separation of fat and oil, solids separation, anaerobic treatment, aerobic treatment with fine bubble diffusers, sedimentation, biological filtration, reuse of sludge and disinfection by ultraviolet radiation.

Recycling and Waste Management Center

All waste collected from Juma is separated by way of recycling bins strategically placed throughout the lodge and is subsequently stored in a Waste Management Center.

Transfers

The transfers is divided into three parts:

- Part 1 (45 minutes) - Departing from Porto do Ceasa in Manaus to Vila do Careiro, by fast boat. During this path, the boat passes through Meeting of the Waters on the way out and the Floating Pirarucu on the way back.

- Part 2 (1 hour) - Vila do Careiro to the Maçarico River, by Highway BR 319 Manaus - Porto Velho, by minibus or van. Depending on the season, stop along the way to see the water lilies.
- Part 3 (1 hour) - Maçarico River to Juma Lodge, by fast boat. First closer contact with the forest, passing through holes and streams. On the way there are chances of seeing dolphins, birds and alligators.

Children

Children from 0 to 5 years old stay for free.

Children from 6 to 10 years old staying with two adults in the same room are extended a discount of 50% from the triple fare.

Luggage

Guests are allowed to bring 10 kg (22 lbs) of luggage per person. Luggage exceeding this amount can be stored in Juma's Manaus office for no additional charge.

Bills

All bills accumulated at the lobby bar must be paid in cash. The bar does not accept credit cards.

Insects

Juma is located in a black water region, so there are almost no mosquitoes there.
